5.5 Standard Residence Line

A Standard Residence Line provides the Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Residence Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. An optional per line Hunting feature is available for multi-line Customers which routes a call to an idle station line in a prearranged group when the called station line is busy.

5.6 Standard Business Line

The Standard Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Business Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. An optional per line Hunting feature is available for multi-line Customers which routes a call to an idle station line in a prearranged group when the called station line is busy.

5.7 PBX Trunk Service

Basic PBX Trunk Service provides a Customer with a single, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Basic Trunks are provided for connection of Customer-provided private branch exchanges (PBX) to the public switched telecommunications network. Each Basic PBX Trunk is provided with touch tone signaling and may be configured into a hunt group at no additional charge with other Company-provided Basic PBX Trunks. The signal is an analog signal at the DS0 level.

Basic Trunks provided via On-Network services may be equipped with Direct Inward Dialing (DID) capability and DID number blocks for additional charges. DID service in an Off-Network arrangement requires special DID capable trunks plus additional DID number blocks.

5.8 Direct Inward Dialing (DID) Service

Direct Inward Dialing ("DID") permits calls incoming to a PBX system or other Customer Premises Equipment to be routed to a specific station without the assistance of an attendant. DID calls are routed directly to the station associated with the called number. DID service as offered by the Company provides the necessary trunks, telephone numbers, and out-pulsing of digits to enable DID service at a Customer's location. DID service requires special PBX software and hardware not provided by the Company. Such hardware and software is the responsibility of the Customer.

5.9 Optional Calling Features

The features listed in Section 5.9.1 are offered by the Company to Residential and Business Customers. Service availability may vary between On-Net and Off-Net Customers. Refer to Price Lists in Sections 6 and 7 of this tariff for specific features offered with each type of local exchange service.

5.9.1 Feature Descriptions

- (A) **Enhanced Call Forwarding:** Provides end-user control for call forwarding capabilities via dial-accessed voice prompt menus. Customers may forward calls to a primary local or long distance. The end-user may specify a secondary location for routing of go unanswered at the forward-to location or reach a busy signal. This secondary location may be another telephone number, pager or voice messaging service. Other Capabilities included with this feature include:

Speed Forwarding;
Priority Screening;
Ring Control; and
Timed Forwarding.

It is the responsibility of the Customer to subscribe to the telephone number, pager or voice messaging service used as the secondary location.

- (B) **Enhanced Call Forwarding with Audio Calling Name:** Provides all of the functionality of Enhanced Call Forwarding. Also permits the end-user to receive the Directory Name of the party's whose call was forwarded to primary number. In some situations, the end-user may hear the calling party's city and state or telephone number, depending on available call data.
- (C) **Enhanced Call Forwarding Plus:** Provides all of the functionality of Enhanced Call Forwarding. Also includes an additional telephone number with directory listing and distinctive ringing for calls placed to the additional number. Enhanced Call Forwarding Plus allows parties to reach the end-user's location when FCF is active and all calls to the end-users main telephone number would normally forward. Calls to the additional number do not forward even when Enhanced Call Forwarding is active.

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (D) **Enhanced Call Forwarding Plus with Audio Calling Name** - Provides all of the functionality of Enhanced Call Forwarding Plus including the additional telephone number with listing and distinctive ringing. Also permits the end-user to receive the Directory Name of the party's whose call was forwarded to primary number. In some situations, the end-user may hear the calling party's city and state or telephone number, depending on available call data.
- (E) **Call Forwarding Variable** - Permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion. The end-user must dial an activation code from his/her exchange line along with the forward-to number in order to turn the feature on. A separate code is dialed by the end-user to deactivate the feature.
- (F) **Call Forwarding Variable, Remote Access** - Permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion. The end-user must dial an activation code along with the forward-to number in order to turn the feature on. A separate code is dialed by the end-user to deactivate the feature. Feature activation may be performed from the end-user's exchange line or remotely from some other line. Remote access requires the end-user to 1) dial a special access number 2) enter their seven-digit telephone number and 3) enter a personal identification number prior to forwarding their calls.
- (G) **Call Forwarding Don't Answer, Basic**: Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The ringing interval before forwarding and the forward-to number are fixed by the service order.
- (H) **Call Forwarding Don't Answer w/ Ring Control**: Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The forward-to number is fixed by the service order. However, the end-user has the ability to change the time interval before forwarding occurs at his/her discretion.

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (I) **Call Forwarding Don't Answer w/ Customer Control:** Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The ringing interval before forwarding and the forward-to number are fixed by the service order. However, the end-user has the ability to turn the feature on or off at his/her discretion.
- (J) **Call Forwarding Busy Line, Basic:** Permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user service order.
- (K) **Call Forwarding Busy Line w/ Customer Control:** Permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user service order. However, the end-user has the ability to turn the feature on or off at his/her discretion.
- (L) **Call Waiting - Basic:** Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. It permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting is provided with the feature and allows a Call Waiting end-user to disable the Call Waiting feature for the duration of a single outgoing telephone call. Cancel Call Waiting is activated by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (M) **Call Waiting - Deluxe:** Allows the end-user to control the treatment applied to incoming calls while the Customer is off-hook on an existing call. This feature includes the capabilities of Call Waiting Basic plus additional call treatment options. Treatment options offered with Call Waiting Deluxe include:

Answer the waiting call and placing the first party on hold;
Answer the waiting call and disconnecting from the first party;
Direct the waiting caller to hold via a recording
Forward the waiting caller to another location (e.g., voice mailbox or telephone answering service)

Full utilization of Call Waiting Deluxe requires specialized CPE not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE. The end-user must have Caller ID Basic or Deluxe for display of calling party identification information for waiting calls. The end-user must have a Call Forwarding Don't Answer feature active in order to forward a waiting call to another location.

- (N) **Caller ID - Basic:** Permits the end-user to view a Directory Number of the calling party on incoming telephone calls. Information is displayed on a specialized CPE not provided by the Company. The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (O) **Caller ID - Deluxe:** Permits the end-user to view a Directory Name and Directory Number of the calling party on incoming telephone calls. Information is displayed on a specialized CPE not provided by the Company. The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE. In some situations, the calling party's city and state may be displayed rather than a Directory Name, depending on available call data.
- (P) **Anonymous Call Rejection:** Permits the end-user to automatically reject incoming calls when the call originates from a telephone number which has blocked delivery of its calling number (see Calling Number Delivery Blocking). When active, calls from private numbers will be routed to a special announcement then terminated. The feature may be turned on or off by the end-user by dialing the appropriate feature control code. Anonymous Call Rejection is offered as a stand alone feature or as an add-on to Caller ID Deluxe.
- (Q) **Call Block:** Allows the end-user to automatically block incoming calls from up to six end-user pre-selected telephone numbers programmed into the feature's screening list. Callers whose numbers have been blocked will hear a recorded message stating that their call has been blocked. The end-user controls when the feature is active, and can add or remove calling numbers from the feature's screening list.
- (R) **Call Return:** allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will re-dial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (S) **Call Selector:** Allows a Customer to assign a maximum of 15 telephone numbers to a special list. The Customer will hear a distinctive ring when calls are received from telephone numbers on that list.
- (T) **Call Tracing:** Allows the tracing of nuisance calls to a specified telephone number suspected of originating from a given local office. The tracing is activated upon entering the specified dial code. The originating telephone number, outgoing trunk number or terminating number, and the time and date are generated for every call to the specified telephone number can then be identified.
- (U) **Calling Number Delivery Blocking:** Prevents the delivery, display and announcement of the end-user's Directory Number and Directory Name on all calls dialed from an exchange service equipped with this option. When active, the end-user's telephone name and number will not appear on the called party's Caller ID CPE or be disclosed in another way. The feature is available on a per call basis. With per call Calling Number Delivery Blocking, it is necessary for the end-user to dial an activation code prior to placing the call.
- (V) **Message Waiting Indication:** Provides the end-user with an audible (stutter dial tone) or visual (lamp or other CPE display) indication that messages are waiting to be retrieved. Message Waiting Indication can only be activated/deactivated by a voice mailbox or other voice messaging service provided by the Company or third party. It is the responsibility of the Customer to subscribe to a compatible voice messaging service. Visual Message Waiting Indication requires specialized CPE not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (W) **Multiple Directory Number Distinctive Ringing:** This feature allows an end user to determine the source of an incoming call from a distinctive ring. The end user may have up to two additional numbers assigned to a single line (i.e. Distinctive Ringing - First Number and Distinctive Ringing - Second Number). The designated primary number will receive a normal ringing pattern, other numbers will receive distinctive ringing patterns. The pattern is based on the telephone number that the calling party dials.
- (X) **Preferred Call Forwarding:** Permits the end-user to automatically forward to another number calls received from up to six end-user pre-selected telephone numbers programmed into the features screening list. The end-user controls when the feature is active, the forward-to number and can add or remove calling numbers from the feature's screening list.
- (Y) **Repeat Dialing:** Permits the end-user to have calls automatically re-dialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated. The following types of calls cannot be reached using Repeat Dialing:
- Calls to 800 Service numbers
 - Calls to 900 Service numbers
 - Calls preceded by an interexchange carrier access code
 - International Direct Distance Dialed calls
 - Calls to Directory Assistance
 - Calls to 911

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.9 Optional Calling Features, (Cont'd.)

5.9.1 Feature Descriptions, (Cont'd.)

- (Z) Speed Calling:** Permits the Customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as either an eight (8) code list or a thirty (30) code list. Code lists may include local and/or toll telephone numbers. The Customer has the ability to add or remove telephone numbers and codes to/from the a speed calling list without assistance from the Company.
- (AA) Three Way Calling:** Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.10 Listing Services

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. At a Customer's option, the Company will arrange for additional listings for an additional charge.

5.10.1 Nonpublished Service

This optional service provides for suppression of printed and recorded directory listings. A Customer's name and number do not appear in printed directories or Directory Assistance Bureau records.

5.10.2 Nonlisted Service

This optional service provides for suppression of printed directory listings only. Parties may still obtain the Customer's number by calling the Directory Assistance Bureau.

5.11 Directory Assistance

Provides for identification of telephone directory numbers, via an operator or automated platform. Customers are provided with a maximum of 2 listings per each call to Directory Assistance.

SECTION 5.0 - NETWORK SERVICES DESCRIPTIONS, (Cont'd.)

5.12 Operator Services

Provides for live or automated operator treatment when a Customer dials "0". Operator Services can be used to assist the Customer in routing or billing for a call. Billing options include, but are not limited to, bill to originating telephone number, calling card, collect or to a third party.

5.13 Long Distance Services

Long Distance Services are available from the Company pursuant to terms, conditions, regulations and rates as provided for in its Long Distance tariff on file with the Commission. Service is available for use by Customers twenty-four (24) hours a day. OPC Long Distance Service enables a User of an exchange access line to place calls to any station on the public switched telecommunications network bearing an NPA-NXX designation associated with points outside the Customer's Local Calling Area. OPC Long Distance Service is offered for both interLATA and intraLATA calling. Customers must arrange for intraLATA and interLATA service from the interexchange carriers of their choice. Customers may choose the Company as their carrier for intraLATA calls and interLATA calls.

(B) In GTE Service Areas

(1) Flat Rate Service

No measured or message charges apply to calls placed or received from Flat Rate service lines. Customers receive unlimited calling within their local calling area.

(2) Measured Extended Area Service (MEAS)

Measured Extended Area Service provides banded distance and usage sensitive billing for Customer dialed or operator assisted calls to locations outside a Customer's normal flat rate local calling area but within the same LATA for the exchanges specified in the South Carolina GTE General Customer Services Tariff, Section 3.3.2.g.

MEAS is provided jointly by GTE South Incorporated and the Horry Telephone Cooperative between exchanges specified in Section S3.3.2.g of the GTE South Carolina Exchange Tariff No.1, located in Horry and Georgetown Counties subject to the availability of facilities and billing capabilities.

MEAS will apply to all residential individual lines; automatic and manual access lines; access lines provided in connection with sharing and resale of Basic Local Exchange Service; public and semi-public lines and access lines provided in connection with Customer-provided coin telephone service.

MEAS usage rate elements are defined as follows:

1. Call Connection - A charge applied to each completed outgoing call placed during the month.
2. Minutes of Use - A charge per minute for the duration of a call.
3. Distance Bands A through E - The incremental Call Connection and Minutes of Use rates based upon interexchange mileage determined by measuring the airline distance between the rate centers within the MEAS calling area, using the V&H coordinate procedure.

(3) Local Measured Service (LMS)

(a) General

1. LMS provides for measured calling to all points within the existing non-long distance (local toll) calling area. Billing for LMS consists of (1) a regular monthly charge for unlimited incoming service and for access to the local network and (2) a charge for each local call completed.
2. The local exchange access rate is billed in advance and the charges for each local call (usage) are billed in arrears.
3. Normal Service Connection Charges for existing Customers will not apply for one (1) Customer conversion to and/or from the LMS offering within the six (6) months period commencing with the effective date of the exchange offering and no activity other than this service change takes place. Changes in excess of this allowance will be billed the regular tariff charges, as appropriate.
4. LMS is subject to Outside Base Rate Area Charges, etc., which are applicable to Flat Rate Service.
5. All Customer lines at a given location must be arranged for LMS and equipped for outward calling. Group billing will be provided on rotary and PBX trunks.
6. Local Usage Charges will not apply to calls to the Company Business Office, Repair Service or for 911 Emergency Service as found in the local exchange telephone directory. Local calls to central office connecting facilities between the Company's central office and other Common Carriers for long distance (local toll) network connection are exempt.

6.2.4 Nonrecurring Charges

Nonrecurring charges apply to each line installed for the Customer. Nonrecurring charges are in addition to applicable service order charges contained in Section 4 of this tariff. All such charges will appear on the next bill following installation of the service.

A separate nonrecurring per line charge will apply where the Customer currently has service from the Incumbent LEC and requests an "As-Is" changeover of all current service(s) and features from the Incumbent LEC to the Company without any changes in such service or features. This Change Over Charge applies in lieu of the nonrecurring charges listed in the table below.

Nonrecurring charges for installation of Residential lines are:

	BellSouth <u>Areas</u>	GTE <u>Areas</u>	Sprint/United <u>Areas</u>
First Line	\$40.00	\$24.00	\$32.30
Each Additional Line*	\$18.00	\$24.00	\$13.15

*Additional Line installation charges apply only when 2 or more lines are installed at the same time and at the same Customer Premises.

6.3 Standard Business Local Exchange Service

Standard Business Local Exchange Service provides the Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Business Local Exchange Service lines are provided for the connection of Customer-provided wiring, telephones, facsimile machines or other station equipment. An optional per line Hunting feature is available for multi-line Customers which routes a call to the next idle line in a prearranged group when the called line is busy.

Local exchange service lines and trunks are provided on a single party (individual) basis only. No multi-party lines are provided. Service is available on a flat rate, measured rate or message rate basis depending on the service plan selected by the Customer. Not all service plans will be available in all areas.

Recurring charges for Standard Business Local Exchange Service are billed monthly in advance. Usage charges, if applicable are billed in arrears. Usage charges may apply for calls placed from the Customer's line. No usage charges will apply to calls received by the Customer. Nonrecurring charges for installation or rearrangement of service are billed on the next month's bill immediately following work performed by the Company.

(d) Usage Packages, (Cont'd.)

2. For business Customers who subscribe to this package, the fifty percent time period discount is extended to apply to all time periods. This package includes a \$20.00 allowance of discounted basic service area usage for each line or trunk on the Customer's account.

For business Customers who subscribe to this package, discounted basic service area usage covered by the \$20.00 allowance applies to discounted basic service area usage which does not exceed the billable usage limit of \$25.00 for a business line specified above.

The maximum per line discounted basic service area usage that can be billed to a business line Customer (\$5.00) is the difference between the billable usage limit earlier of \$25.00 and the allowance specified herein (\$20.00).

When a Customer subscribes to more than one line at the same premises, usage for all lines on the same account will be billed collectively. With group billing, usage allowances and billable usage limits specified above are applied on a per account basis, not a line by line basis, i. e. the per line amount of the monthly usage allowance or the monthly billable usage limit is multiplied by the number of lines in the group and compared to the accumulated usage for the group to determine the billed amount. All lines in a group billing arrangement must have the same central office designation.

(B) In GTE Service Areas

(1) Flat Rate Service

No measured or message charges apply to calls placed or received from Flat Rate service lines. Customers receive unlimited calling within their local calling area.

(2) Measured Extended Area Service (MEAS)

Measured Extended Area Service provides banded distance and usage sensitive billing for Customer dialed or operator assisted calls to locations outside a Customer's normal flat rate local calling area but within the same LATA for the exchanges specified in the South Carolina GTE General Customer Services Tariff, Section 3.3.2.g.

MEAS is provided jointly by GTE South Incorporated and the Horry Telephone Cooperative between exchanges specified in Section S3.3.2.g located in Horry and Georgetown Counties subject to the availability of facilities and billing capabilities.

MEAS will apply to all business individual lines; automatic and manual access lines; access lines provided in connection with Sharing and Resale of Basic Local Exchange Service; public and semi-public lines and access lines provided in connection with Customer-provided coin telephone service.

MEAS usage rate elements are defined as follows:

- (1) Call Connection - A charge applied to each completed outgoing call placed during the month.
- (2) Minutes of Use - A charge per minute for the duration of a call.
- (3) Distance Bands A through E - The incremental Call Connection and Minutes of Use rates based upon interexchange mileage determined by measuring the airline distance between the rate centers within the MEAS calling area, using the V&H coordinate procedure.

6.3 Standard Business Local Exchange Service, (Cont'd.)

6.3.4 Nonrecurring Charges

Nonrecurring charges apply to each line installed for the Customer. Nonrecurring charges are in addition to applicable service order charges contained in Section 4 of this tariff. All such charges will appear on the next bill following installation of the service.

A separate nonrecurring per line charge will apply where the Customer currently has service from the Incumbent LEC and requests an "As-Is" changeover of all current service(s) and features from the Incumbent LEC to the Company without any changes in such service or features. This Change Over Charge applies in lieu of the nonrecurring charges listed in the table below.

Nonrecurring charges for installation of Business lines are:

	<u>BellSouth Areas</u>	<u>GTE Areas</u>	<u>Sprint/United Areas</u>
First Line	\$64.00	\$28.00	\$35.60
Each Additional Line*	\$26.00	\$28.00	\$14.50

*Additional Line installation charges apply only when 2 or more lines are installed at the same time and at the same Customer Premises.

6.5 Residence and Business PBX Trunk Service

PBX Trunk service provides a Customer with a single, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Trunks are provided for connection of Customer-provided private branch exchanges (PBX) or other station equipment to the public switched telecommunications network.

PBX Trunks are available to Business and Residence Customers as Inward, Outward or Two-Way combination trunks where services and facilities permit. Service is provided at Residence and Business Local Exchange Service rates and charges as specified in Sections 6.2 and 6.3 of this tariff.

Each PBX Trunk is provided with touch tone signaling at no additional charge. An optional per trunk Hunting feature is available for Customers which routes a call to the next idle trunk in a prearranged group (see Sections 6.2 and 6.3).

PBX Trunks may also be equipped with Direct Inward Dialing (DID) capability and DID number blocks for additional charges (see Section 6.6).

SECTION 6.0 - LOCAL SERVICES PRICE LIST, (Cont'd.)

6.6 Direct Inward Dialing (DID) Service

Direct Inward Dialing ("DID") permits calls incoming to a PBX system or other Customer Premises Equipment to be routed to a specific station without the assistance of an attendant. DID calls are routed directly to the station associated with the called number. DID service as offered by the Company provides the necessary trunks, telephone numbers, and out-pulsing of digits to enable DID service at a Customer's location. DID service requires special PBX software and hardware not provided by the Company. Such hardware and software is the responsibility of the Customer.

The following charges apply to Customers subscribing to DID service provided by the Company. These charges are in addition to recurring and nonrecurring charges for PBX Trunks as shown in Section 6.5 of this tariff. The Customer will be charged for the number of DID Number Blocks (20 numbers per block) regardless of the number of DID numbers utilized out of the available 20 numbers.

6.7 Access Lines for Customer Provided Pay Telephones ("CPPT")

6.7.1 General

The Company provides access lines for connection of Customer-provided Pay Telephone equipment (CPPT) public switched network. CPPT lines provide the aggregator with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. CPPT lines are provided on a single party (individual) basis only. No multi-party lines are provided.

Recurring charges for CPPT lines are billed monthly in advance. Usage charges, if applicable, are billed in arrears. Usage charges may apply for calls placed from the CPPT line subscribed to by the aggregator. No usage charges will apply to calls received by the Customer. Nonrecurring charges for installation or rearrangement of service are billed on the next month's bill immediately following work performed by the Company.

6.7.2 Regulations

- (A) CPPT lines will be provided only to Aggregators certificated by the South Carolina Public Service Commission. Proof of certification is required prior to installation of service. Service will be disconnected should the Company determine that the Aggregator is no longer certified or has had certification revoked for any reason.
- (B) The aggregator is responsible for all local and long distance usage charges billed to the CPPT line. These charges included, but are not limited to, any operator charges for calls billed to the line on a collect or third party basis in the event that the aggregator does not subscribe to blocking and screening features offered in Section 6.7.4 of this tariff.
- (C) Unless otherwise permitted by Commission rule or order, only one Pay Telephone instrument may be connected to each CPPT line.
- (D) Unless otherwise permitted by Commission rule or order, 0- local operator assisted calls must be routed to the Company's operators.
- (E) Aggregators subscribing to the Company's CPPT lines are responsible for compliance with the Commission's "Regulations for Operator and Pay Telephone Services" any other rules or regulations the Commission may require.

Flexible packaging offers a monthly discount on specific GTE calling services and/or features. Flexible packaging is available to residence individual line Customers only.

When the Customer orders four (4) or more of the eligible features, the discount applies to all eligible features. The discount percentage is applied to the total of the individual feature rates subscribed to by the Customer. All features ordered by the Customer must be on the same residence account.

The combination of features is not important to the discount, only the number of features. If the Customer removes an eligible feature or features so that the total subscribed to for this package is less than four (4), the discount percentage will not apply and the individual feature rates specified in Section 6.8.2.B will apply.

The following features are eligible for the flexible packaging discount offering:

Automatic Busy Redial	Distinctive Ring
Automatic Call Return	Special Call Acceptance
Call Block	Special Call Forwarding
Call Forwarding-Variable	Speed Calling (8 Number)
Call Waiting	Speed Calling (30 Number)
Caller ID-Name and Number	Three Way Calling

SECTION 7.0 - DIRECTORY ASSISTANCE AND LISTING SERVICES

7.1 Directory Listings

7.1.1 General

The following rules apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Only information necessary to identify the Customer is included in these listings. The Company uses abbreviations in listings. The Company may reject a residence listing which is judged to be advertising. It may also reject a listing it judges to be objectionable. A name made up by adding a term such as Company, Shop, Agency, Works, etc. to the name of a commodity or service will not be accepted as a listing unless the Customer is legally doing business under that name.

A name may be repeated in the white pages only when only when a different address or telephone number is used.

SECTION 7.0 - DIRECTORY ASSISTANCE AND LISTING SERVICES, (Cont'd.)

7.2 Nonpublished Service

7.2.1 General

Nonpublished service means that the Customer's telephone number is not listed in the directory, nor does it appear in the Company's Directory Assistance Records.

7.2.2 Regulations

This service is subject to the rules and regulations for E911 service, where applicable.

The Company will complete calls to a nonpublished number only when the caller dials direct or gives the operator number. No exceptions will be made, even if the caller says it is an emergency.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a nonpublished number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for nonpublished service.

The subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a nonpublished service or the disclosing of said number to any person.

7.2.3 Rates and Charges

There is a monthly charge for each nonpublished service. This charge does not apply if the Customer has other listed service at the same location; if the Customer lives in a hotel, boarding house or club with listed service; or if the service is installed for a temporary period.

SECTION 8.0 - LOCAL OPERATOR SERVICES

8.1 General

Customers may subscribe to intraLATA and interLATA operator services offered by the Company. Customers have the option of selecting another carrier as their primary intraLATA and/or interLATA long distance carrier if requested.

8.2 Local Operator Assisted Services

OPC's Local Operator Assisted Calling is available for use by presubscribed Customers as well as transient end users served from Aggregator locations. Calls are billed in one minute increments, with additional per call charges reflecting the level of operator assistance and billing arrangement requested by the Customer.

8.2.1 Operator Service Call Types

- A) Customer Dialed Calling/Credit Card Call - This charge applies in addition to local usage charges for station to station calls billed to an authorized Calling Card or Commercial Credit Card. The Customer must dial the destination telephone number and card number where the capability exists for the Customer to do so.
- B) Operator Dialed Calling/Credit Card Call - This charge applies in addition to local usage charges for station to station calls billed to an authorized Calling Card or Commercial Credit Card and the operator dials the destination telephone number at the request of the Customer.
- C) Operator Station - These charges apply in addition to local usage charges for non-Person-to-Person calls placed using the assistance of a Company operator and billed to the originating line, Collect, to a Third Party, by deposit of coins in Pay Telephones, or via some method other than a Calling Card or Commercial Credit Card.
- D) Person-to-Person - This charge applies in addition to local usage charges for calls placed with the assistance of a Company operator to a particular party at the destination number. This charge applies regardless of billing method, including but not limited to billing to the originating line, a Calling Card, Commercial Credit Card, Collect, by deposit of coins in Pay Telephones, or to a Third Party. Charges do not apply unless the specified party or an acceptable substitute is available.

SECTION 8.0 - LOCAL OPERATOR SERVICES, (Cont'd.)

8.2 Local Operator Assisted Services, (Cont'd.)

8.2.2 Available Billing Arrangements

- A) Bill to Line - A billing arrangement whereby the originating caller may bill the charges for a call to the Company-provided local exchange line from which the call is placed. The terms and conditions of the Company apply to payment arrangements.
- B) Calling Card - A billing arrangement whereby the originating caller may bill the charges for a call to an approved LEC-issued calling card. The terms and conditions of the local exchange carrier apply to payment arrangements.
- C) Collect Billing - A billing arrangement whereby the originating caller may bill charges for a call to the called party, provided the called party agrees to accept the charges. The terms and conditions of the called party's local exchange company apply to payment arrangements.
- D) Commercial Credit Card - A billing arrangement whereby the originating caller may bill the charges for a call to an approved commercial credit card. The terms and conditions of the credit card company apply to payment arrangements.
- E) Third Party Billing - A billing arrangement by which the charges for a call may be billed to a telephone number that is different from the calling number and the called number. The terms and conditions of the third party's local exchange company apply to payment arrangements.

8.2.3 Operator Dialed Surcharge

This charge applies to Operator Station and Person-to-Person calls for which the caller has the ability to dial the called number, but chooses instead to have the Company operator perform the dialing. This charge is in addition to local usage charges and applicable operator service charges.

8.3 Busy Line Verification and Line Interrupt Service

Upon request of a calling party the Company will verify a busy condition on a designated local service line. The operator will determine if the line is clear or in use and report to the calling party. At the request of the Customer, the operator will interrupt the call on the busy line. Busy Line Interruption is only permitted in cases where the calling party indicates an emergency exists and requests interruption.

No charge will apply when the calling party advises that the call is to or from an official public emergency agency.

Busy Verification and Interrupt Service is furnished where and to the extent that facilities permit.

SECTION 10.0 - MISCELLANEOUS SERVICES

10.1 Carrier Presubscription

10.1.1 General

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier which the Customer wishes to be the carrier of choice for intraLATA and interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

10.1.2 Presubscription Options - Customers may select the same carrier or separate carriers for intraLATA and interLATA long distance. The following options for long distance Presubscription are available:

- Option A:** Customer select the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.
- Option B:** Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.
- Option C:** Customer may select a carrier other than the Company for intraLATA toll calls subject to presubscription and the Company for interLATA toll calls subject to presubscription.
- Option D:** Customer may select the carrier other than the Company for both intraLATA and interLATA toll calls subject to presubscription

SECTION 10.0 - MISCELLANEOUS SERVICES, (Cont'd.)

10.1 Carrier Presubscription, (Cont'd.)

10.1.2 Presubscription Options, (Cont'd.)

- Option E:** Customer may select two different carriers, neither being the Company for intraLATA and interLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary interLATA interexchange carrier.
- Option F:** Customer may select a carrier other than the Company for no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

10.1 Carrier Presubscription, (Cont'd.)

10.1.3 Rules and Regulations

Customers of record will retain their primary interexchange carrier(s) until they request that their dialing arrangements be changed.

Customers of record or new Customers may select either Options A, B, C, D, E or F for intraLATA Presubscription.

Customers may change their selected Option and/or presubscribed toll carrier at any time subject to charges specified in 10.1.5 below:

10.1.4 Presubscription Procedures

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for service. All new Customer's initial requests for intraLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will direct the Customer to the local telephone directory to select a carrier. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice.

New OPC Customers who are existing Customers of OPC's underlying local exchange carrier shall have the option of retaining their existing carrier selections with no change and at no additional charge.

Customers of record may initiate an intraLATA or interLATA presubscription change at any time, subject to the charges specified in 10.1.5 below.

11.0 - PROMOTIONAL OFFERINGS

11.1 Special Promotions

The Carrier may from time to time engage in special promotional trial service offerings of limited duration (not to exceed ninety days on a per Customer basis for non-optional, recurring charges) designed to attract new Customers or to increase Customer awareness of a particular tariff offering. Requests for promotional offerings will be presented to the Commission for its review in accordance with rules and regulations established by the Commission, and will be included in the Carrier's tariff as an addendum to the Carrier's price lists.

11.2 Discounts

The Company may, from time to time as reflected in the price list, offer discounts based on monthly volume (or, when appropriate, "monthly revenue commitment" and/or "time of day" may also be included in the tariff).
